At this time Mr. Slattery gave an account of a meeting he attended in Southampton on October 28th, at which a discussion was held and plans were made for Long Island's share, both exhibit and advertising, of the New York World's Fair 1939.

The following resolution, offered by Mr. Slattery, seconded by Mr. McKnight, was unanimously adopted:

WHEREAS, the pole line along the Dune Road on the south beach, heretofore used jointly by the New York Telephone Company, the Long Island Lighting Company, and the United States Coast Guard, was so damaged on September 21st, 1938 as to interrupt the service of said companies and the communications of said Coast Guard, and

WHEREAS, the Commander of the United States Coast Guard, New York Division, has requested permission to restore any poles that have been broken or removed as a result of said storm so as to immediately restore telephone communications between Coast Guard points, and

WHEREAS, this Board desires to aid to restore such service but wishes to guard against any future erection of poles to maintain the service of said corporations apart from said service of said Coast Guard,

NOW, THEREFORE, BE IT AND IT HEREBY IS

RESOLVED, that permission be granted to the United States Coast Guard to restore or replace such poles as may be needed to maintain Coast Guard circuits along the Dune Road in the village of Westhampton Beach, as heretofore, but subject to the following conditions:

(1) Poles shall be spaced not less than 125 feet apart, and shall be located along the southerly side of said Dune Road not more than five (5) feet northerly from the southerly line of said road, which southerly line shall mean the recorded line and not the traveled surface.

(2) Joint use of such poles by the New York Telephone Company and the Long Island Lighting Company shall be permitted by said Coast Guard.

(3) Such poles shall be removed within sixty (60) days at any time hereafter, upon written notice, should any poles be erected by the said New York Telephone Company and the Long Island Lighting Company, or either of them, along any lateral line on the south beach in the village. This condition is to apply to guard against a duplication of pole lines on said south beach, and the removal of said poles shall not be stayed by any refusal of said companies to grant permission to said Coast Guard to use their poles for the communications service of said Coast Guard.

(4) This permit is conditioned upon the agreement to promptly relocate any pole or poles as hereafter may be requested by the Village Board, to effect road improvements, without expense to this village, and the location of any poles pursuant to this permit shall be deemed evidence of the acceptance of the terms and conditions herein stated.

The following resolution was offered by Mr. McKnight, seconded by Mr. Raynor and unanimously adopted:

WHEREAS, the wrecked property collected in this village has been deposited in designated places so far as possible by the agencies employed in removing debris resulting from the storm of September 21st, 1938, and

WHEREAS, it has become necessary to have the same removed promptly to assure the public health and to safeguard against fire hazard, and

WHEREAS, this Board is advised that the Sheriff of Suffolk County is a proper official to take possession of said property and to dispose of the same,

NOW, THEREFORE, BE IT AND IT HEREBY IS

RESOLVED, that the Sheriff of Suffolk County be requested to immediately take possession of all wrecked property collected in this village and to undertake the removal of the same promptly to safeguard the public health and the private property in this village.

There being no further business before the Board, resolution was offered, seconded and carried that this meeting be adjourned.

The Treasurer's report for November, 1952, was read. Resolution was offered by Mr. Barrett, seconded by Mr. Smith, and unanimously adopted, that the Treasurer's report be approved as read.

Trustee Reynolds reported for the Insurance Advisory Committee. He stated that a survey has been made for Comprehensive Liability Insurance and that this matter is now being considered as to a rate for this type of insurance. A safety survey is now under way. The Yacht Basin building has been covered by fire insurance; however, there is some question as to what value should be placed on the yacht basin flagpole. It was decided that the flagpole be covered in the amount of \$500.

There was some discussion regarding general comprehensive liability coverage and the extent to which this type of insurance may apply in certain instances.

Resolution was offered by Mr. Reynolds, seconded by Mr. Barrett, and unanimously adopted, that this Board of Trustees hereby elects to place the Mayor and Trustees under Workmen's Compensation Insurance.

Trustee Butcher reported for the Fire Advisory Committee. He stated that his Committee have unanimously agreed that the rate charged for fire protection to outlying districts should be based on a rate of \$0.20 per \$100, valuation of the respective districts.

There was a discussion on this matter, resulting in the following resolution, offered by Mr. Butcher, seconded by Mr. Barrett, and unanimously adopted:

WHEREAS this Board of Trustees realizes that increased expenditures are and will be necessary in the operation of the Westhampton Beach Fire Department, be it

RESOLVED that the respective Fire Districts, Westhampton Fire District, Quogue Fire District and the Ocean-Bay West Fire Protection District be charged for fire protection approximately at the rate of \$0.20 per \$100, based on the assessed valuations of the respective districts, and be it

Resolution was offered by Mr. Reynolds, seconded by Mr. Barrett, and unanimously adopted, that Trustee Butcher be authorized to purchase the necessary number of reflector-button type entrance signs, together with exit signs and accessories, from funds on hand in the Department of Public Works, as per quotation of the Local Steel & Supply Company dated November 20, 1952.

Resolution was offered by Mr. Reynolds, seconded by Mr. Barrett, and unanimously adopted, that Street Commissioner Sadleir be authorized to purchase one hundred (100) steel snow fence posts at a price of \$1.80 each.

East End Eruv Association

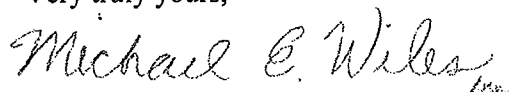

Dear Mr. Sokoloff:

Thank you for your reply.

I continue to be confused as to the Village's position in this matter. Although you still claim to have "deep skepticism" about Verizon's authority to issue the licenses to the East End Eruv Association (despite our explanation of the clear legal basis for Verizon doing so), you have not responded to my offer for Verizon to delay the issuance of licenses while the issue is submitted to Judge Wexler for decision. Instead, you have persisted with your motion to dismiss the litigation before Judge Wexler as unripe. I can therefore only assume that you have decided you do not want to litigate this issue before the Court. Verizon will thus move forward with issuing these licenses.

I cannot send you the final list of poles today, because the Verizon technician in charge of the master list is not available today, but I will send the list early next week. It is my understanding that any poles that arguably were within the boundaries of Southampton have been replaced with poles that are within the boundaries of Westhampton Beach.

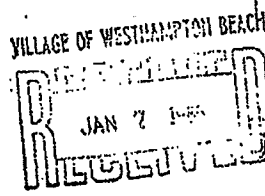

Very truly yours,

Michael E. Wiles
