Albany, NY 12233-7015

Subject: Former Canine Kennel Site – Addendum to the Interim Remedial Measure Work Plan – Site # 152079

Dear Ms. Bishop:

P.W. Grosser Consulting, Inc (PWGC) hereby submits this Interim Remedial Measure (IRM) Work Plan Addendum for the subject site to the New York State Department of Environmental Conservation on behalf of the Suffolk County Department of Health Services.

This letter serves as an addendum to the Final IRM Work Plan submitted to the NYSDEC, on March 18, 2012, to stipulate additional content, requirements and procedures that will be followed during implementation of the IRM Work Plan. The contents of this addendum are added to the IRM Work Plan and will supersede the content in the IRM Work Plan where there is a conflict in purpose or intent. The changes included in this addendum are based on discussions during the conference call between NYSDEC, NYSDOH, PWGC, and SCDHS on May 17, 2012.

ADDENDUM LIST

1. Removal of the requirement to install an asphalt cover in the boatyard area post remediation. Instead the SCDHS will install storm water control(s) (asphalt curb, silt fencing, etc.) along the site boundary to minimize overland runoff from the site to the boatyard.
2. Post excavation of the three "hot spots" at the site, SCDHS will backfill the excavations to pre-existing grade, so that residual PCB contaminated soils are not exposed to the environment.

Should you have any questions, or require further information, please do not hesitate to contact us.

Very truly yours,
P.W. Grosser Consulting, Inc.

Andrew Lockwood
