DECISIONS:

1. Francis & Donna O’Conner, 16 Oneck Place (905-009-03-035) Applicant requests variance from §197-6 D to construct an addition with a front yard setback of 38.9 feet where the minimum setback required is 50 feet.

NEW APPLICATIONS:

2. Shane & Jacqueline Peros, 222 Oneck Lane (905-010-01-002) Applicant requests variance from §197-6 D to construct a two-story addition with a side yard setback of 20.2 feet where the minimum setback required is 30 feet, and, with a one-story screened-porch addition, the applicant requests variance from §197-6 D for a proposed combined side yard of 50.5 feet where the minimum combined side yard required is 70 feet.

3. Crampton Society LLC, 119 Dune Road (905-021-03-008) Applicant seeks an interpretation that the Building Inspector errored in his determination that the dwelling is located within the primary dune area where restorations are prohibited and that the dwelling is located within the secondary dune area where there is no prohibition of engaging in a restoration. In lieu of a favorable determination by the Board, the applicant requests variances from §74-8 A(8) for proposed additions and alterations that represent a restoration (exceeding 50% of the full replacement cost of the existing dwelling) within a Coastal Erosion Hazard Area primary dune area where prohibited. Irrespective of the above item, the applicant also requests variances from §197-5 A(1) for proposed additions within a required yard (within 75’ of the crest of dune/rear property line) where conformity is required for additions, from §197-8 E(1)(b) for a proposed roof ridge height of 49.65 feet above sea level where the maximum permitted is 44 feet above sea level, from §197-34 G for a proposed dwelling floor area of 6,907 square feet where the maximum permitted is 6,000 square feet, and from §197-35 C for a proposed deck that extends 5 feet past the crest of the dune (rear property line) where the minimum setback required is 75 feet.
